

## **2007 Department of Health Mosquito Prevention and Control Program Preferred bid pricing information**

The Department of Health has successfully completed the bid process for mosquito prevention and control equipment and chemicals. Contracts have been awarded based on the lowest bid per Procurement Management protocols. All successful contracts are posted on this website:  
[www.state.sd.us/boa/opm/Downloads/N23035.pdf](http://www.state.sd.us/boa/opm/Downloads/N23035.pdf).

The purpose of the process is to secure the “low bid” for common mosquito control equipment and chemicals. Cities and counties will be able to purchase directly from the low bid vendors at state negotiated rates.

If you have any questions on the bid process, please contact Scott Munsen at 605-773-4287 or [scott.munsen@state.sd.us](mailto:scott.munsen@state.sd.us).
